

2007 OCCSS Show Classifications

Division I - Cactus

1. Ariocarpus
2. Astrophytum
3. Obregonia, Strombocactus, Ortegocactus
4. Aztekium, Epithelantha, Geohintonia, Pelecyphora
5. Ferocactus, Hamatocactus, Leuchtenbergia
6. Echinocereus
7. Echinocactus
8. Sclerocactus, Pediocactus
9. Stenocactus, Echinofossulocactus
10. Thelocactus
11. Coryphantha, Escobaria
12. Turbinicarpus, Gymnocactus, Neolloydia,
13. Mammillaria, solitary, not clustering
14. Mammillaria clusters 0-6" pot
15. Mammillaria clusters, 6+-9" pot
16. Mammillaria clusters, specimens 9+" pot
17. Columnar Cactus, All
18. Opuntioideae, All
19. Melocactus
20. Gymnocalycium
21. Discocactus, Coleocephalocereus
22. Echinopsis, Lobivia, Acanthocalycium
23. Eriocyce (incl. Neoporteria, Neochilenea)
24. Parodia – Hooked spines
25. Parodia – wo/hooded spines(incl. Notocactus)
26. Rebutia, Weingartia
27. Sulcorebutia
28. Matucanca, Oroya
29. Copiapoa
30. Fralia, Blossfeldia
31. Epiphytic Cactus
32. Ubelmannia
33. Other Genera
34. Variegated Cactus
35. Crested Cactus
36. Monstrose Cactus
37. Minature Cactus, mature plant in under 3" pot
38. Collections 5-12 plants

Division II - Succulents

Crassulaceae

41. Crassula, Kalanchoe
42. Adromischus
43. Cotyledon, Tylecodon
44. Dudleya
45. Echeveria
46. Other Crassulaceae: Aeonium, Pachyphytum, Graptopetalum, Tacitus, Monathes, Sedum, etc

Mesembryanthemaceae

47. Lithops
48. Conophytum
49. Agyroderma, Dinteranthus, Faucaria, etc
50. Other Mesembs, w/o prominent roots
51. Other Mesembs with prominent roots or stems

Euphorbiceae Species Endemic to Madagascar

52. Euphorbia - Madagascar Species, milli type
53. Euphorbia - Madagascar Species, stem type
54. Euphorbia - Madagascar Species, caudiciform or geophyte
55. Euphorbia - Madagascar Species, shrub type

Euphorbiaceae Species NOT Endemic to Madagascar

- 56. Medusa type
- 57. Euphorbia - Caudiciform type: groenwaldii, kunthii, stellata, etc
- 58. Euphorbia - Other, stem type – w/o prominent thorns: obesa, abdukkuri, etc
- 59. Euphorbia - Other, stem type – w/prominent thorns: ferox, horrida, virosa, etc
- 60. Shrub type: misera, platyclada, etc

Other Genera of Euphorbiaceae

- 61. Other Euphorbiaceae - Jatropha, Monadenium, Pedilanthus

Asclepiadaceae

- 62. Hoodia, Trichocaulon, Psuedolithos, Whitslonia, etc
- 63. Stapelia, Orbea, Caralluma, Huerna, Echidinopsis
- 64. Fockea
- 65. Brachystelma, Raphionacme
- 66. Ceropegia, Sarcostemma, Cynanchum
- 67. Other Asclepiadaceae: Hoya, Dischidia, etc

Asphodelaceae

- 68. Aloe
- 69. Haworthia, Astroloba, Poellnitzia
- 70. Gasteria

Geraniaceae

- 71. Pelargonium
- 72. Sarcocaulon

Apocynaceae

- 73. Adenium, Plumeria
- 74. Pachypodium – African Species
- 75. Pachypodium – Madagascar Species

Succulents in Other Families

- 76. Agavaceae: Agave, Nolina, Yucca
- 77. Asteraceae: Senecio, Othonna
- 78. Bromeliaceae: Abromeitiella, Dyckia, etc
- 79. Burseraceae: Bursera, Commiphora
- 80. Didiereaceae: Alluadia, Decarya, Didierea
- 81. Dracaenaceae: Sanservieria (includes variegates)
- 82. Moraceae: Dorstenia (Put Ficus in class 89 or 90)
- 83. Passifloraceae: Adenia
- 84. Portulacaceae: Anacampseros, Avonia, Ceraria
- 85. Vitaceae: Cissus, Cyphostemma

Pachycauls, Caudiciforms & Geophytes

- Adansonia, Bombax, Chorisia, Cucurbitaceae, Dioscorea, Fouquieria, Pachycormus, etc
- 86. Pot size under 8 inches
- 87. Pot size 8 inches and over
- 88. Any other Genus
- 89. Variegated Succulents
- 90. Crested Succulents
- 91. Monstrose Succulents
- 92. Miniatures (mature plants in less than 3" pot)
- 93. Collections of 5 to 12 plants

Division III - Arrangements

- 94. Planters, Dish Gardens
- 95. Bonsai

Division IV - Allied Interests

- 96. Painting, Drawing, Photography, Sculpture, Handicraft etc

Division V - Educational Display

- 97. Educational Display (Minimum of 2 entries required for judging)

NOTES: Division III, IV, V are "heads up" competition. (No Novice/Expert divisions)
